

ILLUSIONS OF ADULTING

by Sara Zimmerman

I had a talk with Alexis earlier and now I'm going to be much more realistic about things.

You mean like actually realizing how hungry you are and ordering your own food instead of eating mine?

Haha
No, not things like THAT
Other stuff...

...like things that can make
me truly happy...

...like things
in a MOVIE!

A movie?
Well, I always did picture
myself as Ironman.

No, silly.
You're totally
missing the point of
what I am saying.

Like something more
realistic; like a princess
being saved by a knight
in shining armor.

What? That makes no sense.
There's no knight in shining
armor in The Avengers.

We should totally watch
The Avengers again.

Oh, hey...

... you're
missing an
earring.

My earring?
Uhhh...

...oh... Right...
Uhhhhh...
